

OUR PHILOSOPHY

Research shows that play is the most natural vehicle for childhood learning. At NDLC we focus on creating a play-based environment for our students.

By offering developmentally appropriate opportunities for play, children are totally engaged in the learning process. In this way, we prepare your child for school and a lifetime of learning.

- We increase each child's security and self esteem.
- We promote spiritual, physical, emotional, social, intellectual, linguistic and artistic development.
- We provide an enriching environment which allows each child to develop his or her sense of wonder and curiosity.

*Awakening each child
to God's world*

WHO WE ARE

We are proud to offer a program based on the educational tradition of the Sisters of Notre Dame.

Notre Dame Learning Center Preschool provides Catholic child care and educational programs, assisting each child in experiencing what it means to be a child of God.

Located near the provincial center for the Sisters of Notre Dame in California, our indoor/outdoor classroom offers ample space for children to interact freely with each other and their environment. Children between the ages of 2.9 and 5 years old are eligible to attend. We assist with potty training at no additional charge.

WHAT WE DO

Since young children learn through play, we give our students opportunities for structured and unstructured activities which empower them to become life-long learners. A typical day at Notre Dame Learning Center Preschool looks like this:

7:30 am

early drop-off

8:30 - 11:30 am

morning preschool - including circle time and center activities, snack, story and music time

11:30 am - 6:00 pm

extended child care - including lunch, patio and playground activities, afternoon nap, story and music time, quiet play and clean-up

YOUR ROLE

Parental involvement is an essential component of Notre Dame Learning Center Preschool's quality educational program. We are committed to collaborating with parents in the following ways:

- Open communication between teachers and parents
- Daily summaries of our program activities
- Parent-teacher conferences each semester and as requested
- Parent education on child development and parenting skills
- Parent participation through observing, volunteering, talent-sharing and fundraising
